

Priva Dosing Rigs

Priva Feed Dosing Systems

Nutriflex

Application	Mix Tank - Inline or By-pass
Flow Rate	5 - 65m ³ /hr* Customisable up to 110m ³ /hr*
Channels	Up to 10 Dosing Channels
Probes	2 x EC Probes, 2 x pH Probes
Concentration	Up to 38% Nitric Acid

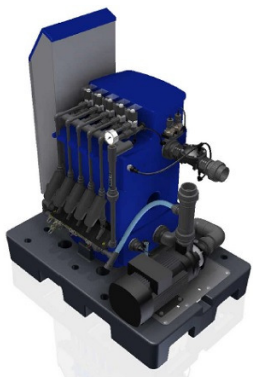

Nutrijet

Application	Inline or By-pass
Flow Rate	Up to 80m ³ /hr*
Channels	Up to 10 Dosing Channels
Probes	2 x EC Probes, 2 x pH Probes
Concentration	Up to 38% Nitric Acid

Nutrijet Pumpless

Application	Inline supplied w/o system pump
Flow Rate	Up to 80m ³ /hr*
Channels	Up to 10 Dosing Channels
Probes	2 x EC Probes, 2 x pH Probes
Concentration	Up to 38% Nitric Acid

Nutrifit

Application	Standardised Mix Tank
Flow Rate	3 - 28m ³ /hr*
Channels	Up to 5 Dosing Channels (4 x Feed, 1 x Acid)
Probes	2 x EC Probes, 2 x pH Probes
Concentration	Up to 38% Nitric Acid

*Subject to model and number of Dosing Channels selected

Priva Dosing Rigs

Priva Acid Dosing Systems

Neutraliser

Application	Direct Acidification & Circulation of Water Storage Tank
Flow Rate	Three basic models: 20,000L/hr, 40,000L/hr & 60,000L/hr
Air Intake	Venturi based system located at discharge into tank
Probes	2 x pH Probes
Concentration	Up to 38% Nitric Acid

Priva UV Systems

Vialux

Application	UV Disinfection
System utilises UV-C light to disinfect water, rendering fungi, bacteria, nematodes and viruses harmless.
